---

To secure a web development position where I can apply my programming skills and creativity in building user-friendly and responsive websites, while continuously learning and contributing to the growth and success of the organization.

## EXPERIENCE

---

In1Go Technologies Inc.

September 29, 2023 – Present

**Web Developer**

- Developed and maintained interactive, responsive websites using HTML, CSS, JavaScript, Bootstrap, WordPress, Elementor, PHP, and Laravel.
- Built Python scripts for web crawling and web scraping to automate data collection, used OCR to extract text from images, and converted PDFs to Excel/CSV.
- Integrated Xendit Payment Gateway into Laravel websites for secure transactions.
- Integrated Google Analytics and Pipedrive CRM for real-time tracking and lead management.
- Configured UTM parameters and conversion tracking with Google Tag Manager.
- Resolved Google Search Console indexing issues to improve SEO visibility.
- Collaborated with back-end developers to connect front-end and back-end functionality.
- Conducted thorough testing and debugging to optimize performance.
- Maintained and updated websites with accurate content and security updates.
- Deployed websites to live servers, managing hosting and ensuring uptime.

Spadmond Technology Inc.

June 26, 2023 – September 2023

**Front-End Developer**

- Developed responsive, user-friendly web applications using HTML5, CSS3, JavaScript, and Bootstrap.
- Created and customized WordPress and Elementor sites with interactive elements per client needs.
- Fixed bugs and layout issues to improve UI/UX and performance.
- Worked with back-end developers to integrate RESTful APIs and dynamic content.
- Performed manual testing and debugging via browser tools.
- Maintained clean, well-documented code following best practices.
- Used Git for version control and participated in code reviews.
- Gained experience in SEO, accessibility, and performance optimization.

- Independently developed and deployed websites using HTML, CSS, JavaScript, PHP, and MySQL.
- Built dynamic web applications with Laravel and AJAX for enhanced UX.
- Customized WordPress and Elementor sites, managing layout, plugins, and content.
- Integrated front-end and back-end systems to deliver full solutions tailored to client needs.
- Deployed websites locally and live on HostGator, Hostinger, and Web.com.
- Collaborated with clients on requirements and provided regular project updates.
- Applied Git version control to manage codebase efficiently.

## EDUCATION

---

Cavite State University – Bacoar Campus	2019 - 2023
<b>Bachelor of Science in Information Technology</b>	
Imus Computer College - Alabang	2018 - 2019
<b>Computer Programming</b>	

## SKILLS & OTHER

---

- Front-End Web Development: Skilled in HTML, CSS, JavaScript, Bootstrap, and jQuery to build responsive and user-friendly interfaces.
- Back-End Development: Proficient in PHP, MySQL, and Laravel for developing dynamic and secure web applications.
- AJAX & REST API Integration: Experienced in implementing AJAX for asynchronous operations and integrating RESTful APIs to enhance functionality.
- WordPress Development: Experienced in building and customizing websites using WordPress and Elementor; familiar with plugin configuration and currently learning how to develop custom themes and plugins.
- Hosting Administration: Experienced in managing website hosting, server administration, and ensuring reliable website performance.
- Version Control: Knowledgeable in using Git for source code management and collaboration.
- Project Management Tools: Familiar with Jira for tracking tasks and managing development workflows.
- Other Technical Skills: Experienced with Python for web scraping and automation (including OCR and PDF-to-CSV conversion), Google Analytics setup, and UTM tracking.
- Dean's Lister and Tulong Dunong Program Scholar, Cavite State University - Bacoar Campus (2019–2023)
